

EVENT WRISTBANDS IN FLASH-SPUN HDPE

Sheets ready for full-colour printing.
Two ranges, one standard.

Illustrative images.

One material, two printing formats

Flash-spun HDPE with the same strength in both ranges. The coating and sheet format differ.

KRONO L • Laser Coated

PREMIUM

It has a coating that withstands higher laser-printing temperatures: the wristband does not deform and the ink adheres better.

255 × 203.2 mm sheet, with 6.35 mm tabs at the top and bottom to ensure full printing on the wristbands at each end.

For festivals, premium events and demanding image requirements.

KRONO K • Essential

ECONOMIC

The same material, without coating.

Compact 255 × 190.5 mm sheet, without tabs (12.70 mm less in height).

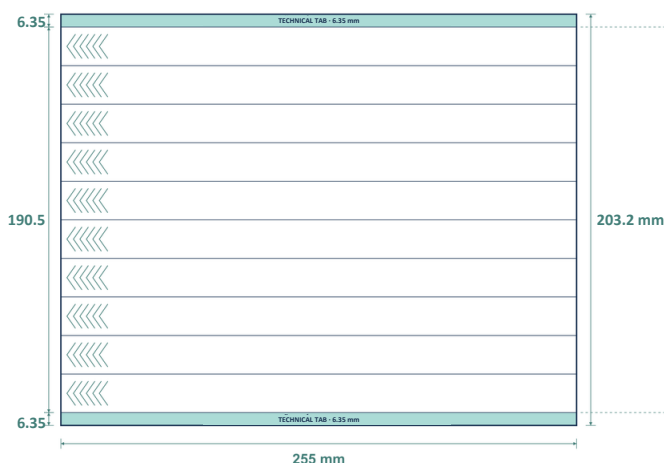

The efficient option for large volumes.

Laser printing is possible depending on the printer and its temperature settings. We recommend testing with samples first.

SHEET DIAGRAMS • TECHNICAL VIEW

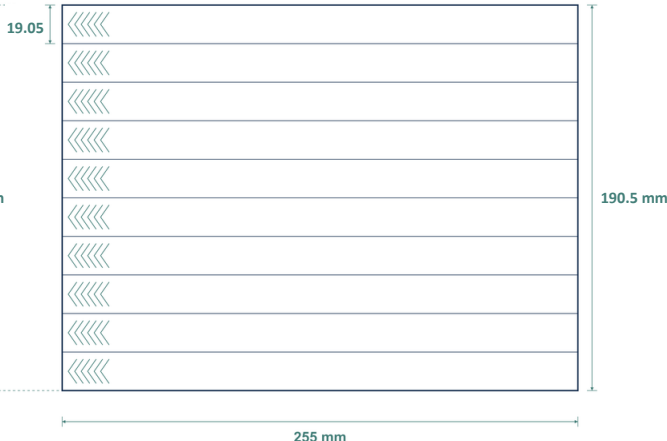

KRONO L • Laser Coated

Sheet 255 × 203.2 mm · 10 wristbands · with technical tabs

KRONO K • Essential

Sheet 255 × 190.5 mm · 10 wristbands · without tabs

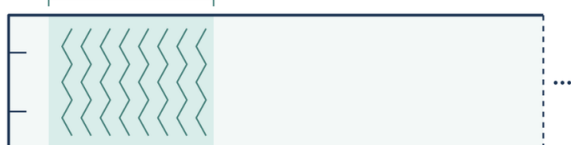

K = L without tabs · 12.70 mm less in height

Technical tabs: full printing on the wristbands at each end

Anti-transfer security closure

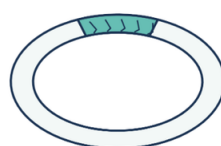

ANTI-TRANSFER SECURITY CLOSURE

Adhesive closure area

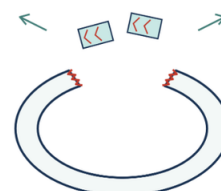

Wristband end (enlarged)

Zigzag cuts over the adhesive area

1 • Closure on the wrist

The adhesive end bonds to the wristband

2 • Attempted removal

Cuts break the wristband: it cannot be reused or transferred

Water-resistant

Tear-resistant

Ultra-lightweight

Full-colour printing

Anti-transfer closure

Same flash-spun HDPE material · wristband 255 × 19.05 mm · 10 wristbands per sheet · white sheet

Supply designed for print businesses

Local contact in Valencia and direct support.

Scalable formats: box of 100 sheets (1,000 wristbands) · carton of 2,000 sheets

(20,000 wristbands) · pallet of 60,000 sheets (600,000 wristbands).

Samples for print testing before the first order.

Technical documentation and certifications available on request.
